

```
//initial value by user
#include<stdio.h>
#include<conio.h>

void main()
{
    int i,value;

    clrscr();

    for(i=0;i<5;i++)
    {
        printf("Enter The Value%d:",i+1);
        scanf("%d",&value);
        printf("\n");
    }

    for(i=0;i<5;i++)
        printf("value%d:%d\n",i+1,value);

    getch();
}
```
